

# Online Cancer Care

An opportunity exists for you to contribute to an Interactive Website that will assist with coordinating the care of people with cancer.

## The Project aims to develop a website that:

- ◆ Will assist in care coordination
- ◆ Will facilitate self management where appropriate
- ◆ Will facilitate communication between patient, family, friends and health professionals
- ◆ Will improve access to information and services for patients, carers and health professionals

If you are going to the CNSA winter congress, please join us at lunchtime on Saturday July 31 to see the website and contribute to its development. If you are not going to Perth but would like to be involved, please contact us on the details below.

**We would really appreciate your input into this project.**

For further information about this project please contact:
