PRIMARY PURPOSE

The Registered Nurse Clinical Research provides person-centred care to clinical trial patients while adhering to trial protocols, documentation, data, and compliance with ethical and regulatory standards. The role also supports multidisciplinary collaboration and professional development in the clinical trials space.

RESPIRATOR USE

NSW Health workers may be required to use a respirator, as part of their appointment with NSW Health. Where a respirator is required for use, workers will be instructed in their safe use; including donning, doffing and fit checking. Staff may be required to complete fit testing to selected respirator/s to assess their facial fit/seal.

At all times when a health worker is required to use a respirator, the health worker must not have any facial hair present. Processes are in place to support workers that need to keep facial hair due to religious observance requirements and/ or health conditions.
